**▼ company entry in branch**  
**industrial furnace equipment**

**▼ heading**

furnaces for aluminium heat treatment

plant layout

burners, jet pipe burners

batch furnaces

through type furnace

flame hardening systems

second hand machinery

annealing furnaces

maintenance engineering

nitriding furnaces

hardening presses

induction machines

laboratory furnaces

laser beam hardening systems

measuring and controlling equipment

plasma furnaces

PVD- CVD- plants

salt bath furnaces

protect. atmosphere generators

controlled-atmosph. furnaces

temp. measuring instruments

vacuum furnaces

hardening furnaces with protective atmosphere

hardening furnaces without protective atmosphere

fluidised bed furnaces

**▼ company entry in branch**  
**suppliers**

**▼ heading**

quenching systems

quenchant

ammonia

picture archiving systems

loading equipment

annealing muffle

hardness tester

heating elements

isolation materials

cooling systems

measuring and controlling instruments

metallographic devices

microscopes

retorts

salt bath crucible

salts

oxygen probes

prot. atmosph. application

protective gas equipment

protective gases

tenifer crucible

thermocouples

heat exchanger

burners, jet pipe burners

**▼ company entry in branch**  
**contract heat treatment**

**▼ heading**

aluminium heat treatment

austempering

boriding

bronzing

CVD/PVD coating

case hardening

low pressure carburizing

flame hardening

slide grinding

annealing

induction hardening

laser beam hardening

brazing

nitriding

nitrocarburising

oxidising

bonderizing

plasma heat treatment

QPQ

straightening

salt bath heat treatment

mechanical finishing

cryogenic treatment

vacuum hardening

hardening and tempering without protective atmosphere

hardening and tempering in protective atmosphere

**▼ company entry in branch**  
**service & consultation**

**▼ heading**

chem. analyses

process consultations

internal quality audits

calibration of material testing machines

calibration of thermocouples

quality system consultation

material investigation

maintenance engineering of furnaces

**Please mark your entry requests costs:**

*company entry in the first branch*

per line 9,00 €  
 per heading entry 9,00 €  
 additional company logo\*  
 lump sum 27,50 €

*company entry in each additional branch*

per line 4,50 €  
 per heading entry 9,00 €  
 additional company logo\*  
 lump sum 13,75 €

\*Your letter head or a file in the .tif or .jpg format at 300dpi resolution can serve as an original.
